The Honorable Fred Upton
Chairman
House Energy and Commerce Committee
United States House of Representatives
Washington, DC 20515

The Honorable Henry Waxman
Ranking Member
House Energy and Commerce Committee
United States House of Representatives
Washington, DC 20515

The Honorable Joe Pitts
Chairman, Subcommittee on Health
House Energy and Commerce Committee
United States House of Representatives
Washington, DC 20515

The Honorable Frank Pallone
Ranking Member, Subcommittee on Health
House Energy and Commerce Committee
United States House of Representatives
Washington, DC 20515

Dear Chairman Upton, Ranking Member Waxman, Chairman Pitts, and Ranking Member Pallone:

The undersigned organizations write to oppose legislation, H.R. 1173, to repeal the Community Living Assistance Services and Supports (CLASS) program and respectfully urge members to reject such legislation.

In 2008, 21 million people had a condition that caused them to need help with their health and personal care. Medicare does not cover long-term services and supports (LTSS), yet about 70 percent of people over age 65 will require some type of LTSS at some point during their lifetime. As our population ages, the need for these services will only grow. In addition, about 40 percent of the individuals who need LTSS are under age 65 and LTSS can enable individuals to work and be productive citizens.

Regardless of when individuals may need these services, there is a lack of financing options to help them plan and pay for the services they need to help them live independently in their homes and communities where they want to be. Family caregivers are on the frontlines. They provided care valued at \$450 billion in 2009 – more than the total spending on Medicaid that year. Private long-term care insurance helps some people pay for the cost of services, but it is not affordable for most, and some people are not even able to qualify for it. Too often, the cost of services wipes out personal and retirement savings and assets that are often already insufficient – as a result, formerly middle class individuals are forced to rely on Medicaid to pay for the costs of LTSS. There are few options for individuals to help them pay for the services they need that could help them delay or prevent their need to rely on Medicaid, the largest payer of LTSS.

That's why we support the CLASS program – to give millions of working Americans a new option to take personal responsibility and help plan and pay for these essential services. CLASS could also take some financial pressure off Medicaid at the state and federal levels -- paid for by voluntary premiums, not taxpayer funds. For us, this is about the financially devastating impact that the need for LTSS has on families across this country every day and the essential, compelling and urgent need to address this issue. Every American family faces the reality that an accident or illness requiring long-term care could devastate them financially. This issue affects the constituents of every U.S. Representative. CLASS is an effort to be part of the solution. The CLASS actuarial report established that CLASS can still

be designed to be a “value proposition,” although development work was still needed. The actuarial report also noted that federal actuaries “...agreed that certain plans, designed to mitigate the adverse selection risk...can be actuarially sound and attractive to the consumers.” Rather than repeal CLASS, we urge continued dialogue and development of a viable path forward. The need to address LTSS and how these services will be paid for in a way that is affordable to individuals and society as a whole will not go away.

Families will continue to need a workable LTSS option to protect themselves, and a path forward is essential because the need for these services will only continue to grow. We appreciate your consideration of our views that are based on the experiences of millions of families across this country. We urge you to reject proposals to repeal CLASS, and instead focus on a constructive path forward.

Sincerely,

AAPD
